# Inclined tube manometer For ventilation and air-conditioning Model A2G-30

WIKA data sheet PM 07.41

auide

for further approvals see page 3

#### **Applications**

- For dry, clean, non-aggressive gases, usually air
- Monitoring of ventilators, blowers and filters in air-conditioning and clean room applications

- Easy to install and remove
- Leakage protection
- Easy-to-read scale

Inclined tube manometer, model A2G-30

### Description

The model A2G-30 inclined tube manometer has been specifically designed for ventilation and air-conditioning applications. The measuring instrument enables a clear and easy-to-read analogue display of the measured values.

The model A2G-30 inclined tube manometer is equipped with a reservoir for absorbing the volume expansion of the measuring liquid in case of a strong heating of the measuring liquid (e.g. when exposed to strong radiation from sunlight). Via an operating button a zero adjustment can be made.

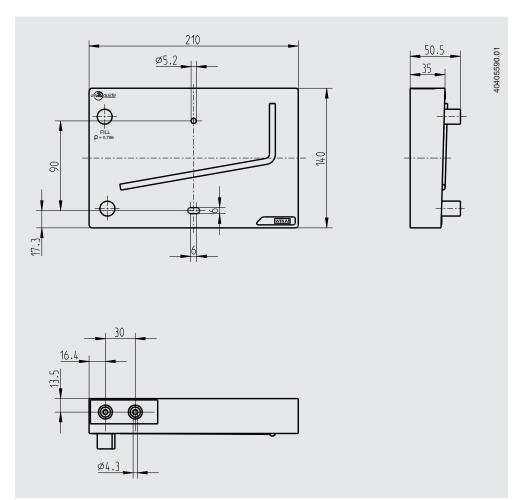

Labels for marking the pressure limits are included in the delivery.

# Specifications

Inclined tube manometer, model A2G-30		
Measuring range	0 600 Pa, 0 6 kPa, 0 2.4 inWC, 0 60 mmWC, 0 6 mbar	
Accuracy	5 Pa/25 Pa	
Maximum pressure	200 kPa (2 bar)	
Process connection	For hoses with inner diameter 4 mm	
Case cover	Plastic	
Sealing	NBR	
Permissible temperature	-40 +60 °C	

## Dimensions in mm

#### Accessories

### Approvals

Logo	Description	Country
EAC	EAC (option) Import certificate	Eurasian Economic Community
ß	KazInMetr (option) Metrology, measurement technology	Kazakhstan
-	MTSCHS (option) Permission for commissioning	Kazakhstan
$\odot$	UkrSEPRO (option) Metrology, measurement technology	Ukraine

## **Certificates (option)**

2.2 test report

Approvals and certificates, see website

### Scope of delivery

- Inclined tube manometer
- Mounting screws
- 30 ml filling liquid
- Red and green pressure limit labels
